BOARD MEMBERS

WELCOME LETTER

Dear colleagues and friends,

It is my great pleasure to welcome you to the 11th Chinese American Neurological Association (CANA) Annual Meeting. Thank you all for being here and for taking the time to join us.

Over the past years, the fields of neuroscience and neurological care have continued to advance at an extraordinary pace. From stroke, epilepsy, and cognitive disorders to neuroimmunology and neurodegenerative diseases—and from the growing application of artificial intelligence in healthcare to innovative diagnostic and therapeutic technologies—we are witnessing an exciting new era in neurology.

Our theme this year is “Advancing Neurology · Innovating Care · Embracing Technology.” We hope this meeting will provide a wonderful opportunity for all of us to learn from one another, share our clinical experiences, exchange new ideas, and explore advances that can improve the care of our patients.

CANA is more than a platform for academic exchange. It is also about friendship, collaboration, and building a strong community of Chinese American neurologists. I hope you will enjoy the lectures and discussions, participate in the social activities, and, most importantly, take the opportunity to reconnect with old friends and make new ones.

I would also like to express my sincere gratitude to our speakers, sponsors, exhibitors, and the many volunteers whose dedication and hard work have made this meeting possible. It is through your support and commitment that we can bring this event to life.

Thank you for being part of CANA and for contributing to our growing community. I hope you have a productive, enjoyable, and memorable meeting.

Welcome!

William Tung, MD, FAAN
President of CANA

AGENDA
